

# HARIS SUJETHAN

Toronto, Ontario | sujethanharis@gmail.com | 416-553-7666 | [github.com/haris-sujethan](https://github.com/haris-sujethan) | [linkedin.com/in/haris-sujethan/](https://linkedin.com/in/haris-sujethan/) | [haris-sujethan.com](https://haris-sujethan.com)

## Education

### Bachelor of Science (BSc.): Computer Science Co-op

Expected Graduation Date: May 2026

Toronto Metropolitan University (formerly Ryerson) - Toronto, ON.

Courses: Computer Science 1 & 2, Computer Organization 1 & 2, UNIX, C and C++, Data Structures, Linear Algebra, Calculus and Computational Methods I, Discrete Mathematics I, Communication in the Computer Industry

## Professional Experience

### Software Engineering Intern

April 2022 to September 2022

Knobull - Exeter, RI.

- Led the development of the Knobull homepage redesign, optimizing user experience and improving visual elements. Implemented responsive design techniques to ensure the website operates seamlessly on all screen sizes. As a result, the website saw a **13%** increase in user traffic
- Created and executed a highly-effective contact us page for Knobull, resulting in improved customer service, and the growth of a valuable email list
- Designed and presented a **Figma prototype** of the Knobull student news page, ensuring efficient and reusable code during implementation, resulting in a significant reduction in debugging and development time for future updates

## Projects

### Full-Stack E-commerce Website

February 2022 to March 2022

React.js, JavaScript, HTML, CSS - [Github](#), [Website](#)

- Developed and launched a full-stack Amazon clone implementing features such as **user authentication**, product listing, and shopping cart functionality
- Integrated Firebase authentication for user registration and login

### Like and Comment Bot

May 2022

Selenium with Python - [Github](#)

- Engineered an Instagram bot that automates engagement by liking and commenting on posts under a specific hashtag
- Implemented a feature to mask user inputs when sensitive information is required
- Incorporated **exception handling** to address scenarios where no posts exist in the specific hashtag

### Crypto Dashboard

December 2022 to January 2023

React.js, Node.js, JavaScript, HTML, CSS - [Github](#), [Website](#)

- Developed a real-time crypto dashboard that allows for the conversion of crypto prices between multiple currencies and displays the latest crypto news
- Constructed a Node.js **backend** to ensure the security of API tokens.

## Skills

Languages: Python, Java, C, C++, JavaScript, SQL, PHP, Lisp, Smalltalk, Elixir, Haskell  
Technologies: React.js, Node.js, HTML, CSS, Bash, Git, Heroku, Unix/Linux, Figma
